January 18, 2008

To Whom It May Concern:

It is with great pleasure that I provide this recommendation for Joe Donnelly and EI Associates. Joe provides an invaluable link between the architect and engineer and the school administration. As a former Principal, he fully understands the unique needs and issues of a building project or renovation for a school district. His insight and experience greatly facilitate the success of the project. Joe serves as a liaison and advocate for the school district. In my opinion, the service that Joe Donnelly provides for EI Associates is what differentiates EI from other architectural firms. It is because of Joe Donnelly, that I recommend EI Associates to any school district looking for an outstanding architectural firm.

Sincerely,

Joyce Picariello  
Business Administrator/Board Secretary
